#### MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A development affecting the industry –

- a. The Government is implementing the ethanol program in a big way. This will increase the consumption of alcohol thus helping boost the revenue of distilleries. GST implementation has resulted in removal of various licenses issued by State Excise for procurement of denatured spirit. Thus with less of licensing industries that were using alternative solvents instead of alcohol will switch back to alcohol. This will increase the usage of alcohol in pharma, cosmetics & perfumeries and chemical industries.
- b. The Good rainfall last year and average rainfall expected this year will increase the sugarcane production and help in decreasing the price of molasses and bagasse our major raw materials.

#### SWOT Analysis -

- a. Strength Increased focus of Government on ethanol blending in fuel and delicensing of Denatured Alcohol and stability in potable alcohol after the Hon. Supreme court clarified the order of highway ban thus resulting in most of the liquor vends opening within the city limits and many panchayats.
- b. Weakness Stricter pollution norms and increase in minimum wages will drive the cost of production upwards.
- c. Opportunities The de-licensing of industries using denatured spirit will give us opportunities to develop new customers in pharma, cosmetics & perfumeries and chemical industries.
- d. Threats New distilleries will start with the shortage of alcohol.

#### Outlook for the future -

The Company has licensed a patent developed by The Central Salt & Marine Chemicals Research Institute (CSMCRI) for recovery of organics and potash from molasses based alcohol distillery effluent (spent wash). The Company is in the process of setting up a plant for recovery of organics and potash from distillery effluent. The technology aims at reducing discharge of hazardous liquid waste which contaminates the ground water. The effluent treated by applying the aforesaid technology will generate valuable organic matter which can be converted into animal feed formulations which have been considered potable by the National Dairy Research Institute in Karnal. The process will also produce potassium nitrate (fertilizer) and reclaimed water which can be used in molasses fermentation process. This will increase our revenue and profits. With the Oil Marketing companies floating tender for 329 crore litres there will higher consumption of alcohol that will move the price of alcohol upwards and we may have increased profitability.

We have already given advances for procurement of molasses so that we have assured supply of raw material in case there is any shortage of raw material as many sugar factories will setup distilleries.

#### Internal Financial Control -

The Company has engaged the services of an independent Chartered Accountant to carry out the internal audit and ensure that recording and reporting are adequate and proper, the internal controls exist in the system and that sufficient measures are taken to update the internal control system. The system also ensures that all transaction are appropriately authorized, recorded and reported. Exercises for safeguarding assets and protection against unauthorized use are undertaken from time to time.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of CharteredAccountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Aurangabad Distillery Limited Independent Auditor's Report 2017-18
